Professional Summary

Full-Stack Developer with 1.5+ years of experience building modern web applications, RESTful APIs, and responsive user interfaces. Experienced in Django, Django REST Framework, React.js, Next.js, PostgreSQL, Redis, Celery, and Docker. Strong background in backend engineering, with hands-on experience developing frontend applications, API integrations, authentication, database systems, and end-to-end web solutions.

Technical Skills

Languages: Python, JavaScript, TypeScript

Backend: Django, Django REST Framework, REST APIs, JWT Authentication, Django Channels, Redis, Celery

Frontend: Next.js, React.js, HTML, CSS, Tailwind CSS, Shadcn UI

Databases: PostgreSQL, MySQL, SQLite, MongoDB

DevOps & Tools: Git, Docker, Vercel, Cloudflare, Postman

Experience

Vasuki Tech

Backend Developer

Biratnagar, Nepal

Oct. 2025 - Apr. 2026

- Developed RESTful APIs using Django and Django REST Framework for web and mobile applications.
- Designed PostgreSQL database models, relationships, and queries to support application features.
- Implemented JWT-based authentication, authorization, and API access control.
- Integrated backend APIs with frontend applications and mobile clients.
- Used Docker, Redis, and Celery for containerized development and asynchronous task processing.
- Collaborated with frontend developers on API integration, debugging, and feature development.

NepBigyapan

Backend Developer

Kathmandu, Nepal

Nov. 2024 - Sept. 2025

- Developed backend modules for a College Management System using Django and Django REST Framework.
- Built RESTful APIs for React.js frontend integration and application workflows.
- Implemented authentication and role-based access control for different user types.
- Managed relational data using Django ORM and optimized database queries when required.
- Resolved backend issues, improved existing features, and collaborated through Git-based workflows.

Projects

Learning Management System

Django REST Framework, React.js, PostgreSQL

[GitHub](#)

- Built a full-stack LMS supporting course management, enrollment, assessments, authentication, and Khalti payment integration.
- Designed RESTful APIs with Django REST Framework for course enrollment, assessments, and learning workflows.
- Implemented an AI-powered assessment module for question generation, answer evaluation, automated scoring, and feedback.
- Built responsive user interfaces using React.js, Tailwind CSS, and Shadcn UI.

Postbox (Social Application)

Django, Django Channels, WebSockets

[GitHub](#)

- Built a social platform with posts, likes, comments, and real-time messaging features.
- Implemented WebSocket-based real-time chat functionality using Django Channels.
- Developed backend logic, authentication flows, and server-rendered UI using Django templates.
- Managed relational data handling and API workflows for social interactions.

TeamUp (Community Event Platform)

Django REST Framework, Next.js, PostgreSQL, Redis, Celery, Docker

[GitHub](#)

- Built a community event platform enabling users to create, discover, and join activities through RESTful APIs.
- Implemented Google OAuth, JWT authentication, profile management, and event participation workflows.
- Used Redis and Celery for asynchronous task processing and Docker for containerized development.
- Integrated Django REST APIs with a Next.js frontend for a responsive full-stack application.

Education

Ratna Rajya Laxmi Campus, Tribhuvan University

Bachelor of Computer Application (BCA), GPA: 3.36/4.00

Kathmandu, Nepal

Dec 2025
